And How You Can Get Access to This Information
PLEASE REVIEW IT CAREFULLY.**

If you have any questions about this notice, please contact the Facility Privacy Officer at the contact information listed at the end of this notice.

Who Will Follow This Notice: This notice describes the facility's practices and that of:

- Any health care professional authorized to enter information into your facility chart.
- All departments and units of the facility, including outpatient facilities.
- Any member of a volunteer group allowed to help you while you are in the facility.
- All employees, staff, agents, and other facility personnel.
- Health care providers and their authorized representatives that are members of the facility's organized health care arrangement, or "OHCA." These health care providers and their authorized representatives will be operationally and/or clinically integrated with the facility, or will otherwise be permitted by law to receive your information. For example, to the extent permitted by law and in accordance with our policies, the facility will share your medical information with physicians who are members of the facility's medical staff, even if the physician is not employed by the facility.
- All entities, sites and locations within this facility's system will follow the terms of this notice. They also may share medical information with each other for treatment, payment, and health care operations purposes.
- The facility may participate in one or more shared electronic medical records (SEMRs) with other health care providers for treatment, payment, and healthcare operations purposes. SEMR participants who do not follow this notice will follow their own notice of privacy practices.

Our Pledge Regarding Medical Information: We understand that medical information about you and your healthcare is personal. We are committed to protecting medical information about you. A record is created of the care and services you receive at this facility. This record is needed to provide the necessary care and to comply with legal requirements. This notice applies to all the records of your care generated by the facility. The terms "information" and "medical information" in this notice include any information that we maintain that reasonably can be used to identify you and that relates to your physical or mental health condition, the provision of health care to you, or the payment for your health care.

This notice will inform you about the ways in which the facility may use and disclose your medical information. Also described are your rights and certain obligations we have regarding the use and disclosure of medical information.

The law requires the facility to:

- Make sure that medical information that identifies you is kept private;
- Inform you of our legal duties and privacy practices with respect to medical information about you;
- Notify you if unsecured medical information about you is affected by a breach; and
- Follow the terms of the notice that is currently in effect.

HOW THE FACILITY MAY USE and DISCLOSE YOUR MEDICAL INFORMATION:

The following categories describe different ways we may use and disclose medical information about you. Not every possible use or disclosure within a category will be listed or explained. However, all the ways we are permitted to use and disclose medical information will fall within one of these categories. Except with respect to Highly Confidential Information (described below), we are permitted to use and disclose your health information for the following purposes:

ATENCIÓN: si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística.

Llame al 1-702-346-8040 (TTY: 1-800-326-6868).

PAUNAWA: Kung nagsasalita ka ng wikang Tagalog, mayroon kang magagamit na mga libreng serbisyo ng tulong sa wika. Tumawag sa 1-702-346-8040 (TTY: 1-800-326-6868).

- **Treatment.** Your medical information may be used to provide you with medical treatment or services. This medical information may be disclosed to physicians, nurses, technicians, and others involved in your care, including employees, contractors, volunteers, students, and interns at the facility or outside the facility. This includes using and disclosing your information to treat your illness or injury, to contact you to provide appointment reminders or to give you information about treatment options or other health related benefits and services that may interest you.

For example: A physician treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. The physician may need to tell the dietitian about the diabetes so appropriate meals can be arranged. Different departments of the facility may also share medical information about you to coordinate your different needs, such as prescriptions, lab work and X-Rays. The facility also may disclose medical information about you to people outside the facility who may be involved in your medical care after you leave the facility, such as family members, home health agencies, and others who provide services that are part of your care.

- **Payment.** Your medical information may be used and disclosed so that the treatment and services received at the facility may be billed and payment may be collected from you, your insurance company and/or a third party.

For example: To the extent insurance will be responsible for reimbursing the facility for your care, the health plan or insurance company may need information about surgery you received at the facility so they can provide payment for the surgery. Information may also be given to someone who helps pay for your care. Your health plan or insurance company may also need information about a treatment you are going to receive to obtain prior approval or to determine whether they will cover the treatment.

Please note we will comply with your request not to disclose your health information to your health plan if the information relates solely to a healthcare item or service for which you have paid out of pocket and in full to us. This restriction does not apply to the use or disclosure of your health information for your medical treatment.

- **Health Care Operations.** Your medical information may be used and disclosed for purposes of furthering day-to-day facility operations. These uses and disclosures are necessary to run the facility and to monitor the quality of care our patients receive.

For example: Subject to any limitations described in this notice, your medical information may be:

1. Reviewed to evaluate the treatment and services performed by our staff in caring for you, including peer review bodies or accreditation organizations.
2. Combined with that of other facility patients to decide what additional services the facility should offer, what services are not needed, and whether certain new treatments are effective.
3. Disclosed to physicians, nurses, technicians, and students for review and learning purposes.
4. Disclosed to accountants, attorneys, consultants, and others to make sure we comply with applicable laws.
5. Combined with information from other facilities to compare how we are doing and see where we can improve the care and services offered. Information that identifies you in this set of medical information may be removed so others may use it to study health care and health care delivery without knowing who the specific patients are.

- **Organized Health Care Arrangement:** The covered entities participating in an OHCA with the facility will share protected health information with each other, as necessary to carry out treatment, payment, or health care operations relating to the OHCA.

- **Limited Data Sets and De-identified Information:** We may use or disclose medical information about you after certain identifiers are removed such as name, address, phone number, medical record number, etc., as permitted by law.

You may restrict or prohibit some or all the uses or disclosures of this information through the census report or patient directory by notifying the Facility Privacy Officer or another facility designated individual.
- **Individuals Involved in Your Care.** Under certain circumstances, we may share your medical information with a family member, guardian or other individuals involved in your care. They may also be told about your condition unless you have requested additional restrictions. In addition, your medical information may be disclosed to an entity assisting in a disaster relief effort so your family can be notified about your condition, status, and location. Additionally we may disclose medical information to a person or entity that will assist in notifying a patient's family member of the patient's location, general condition, or death.
- **Research.** Under certain circumstances, your medical information may be used and disclosed for research purposes. Federal law permits use of medical information for research purposes either with patient authorization or with approval by an Institutional Review Board or privacy board before any research study begins. In some situations, limited information may be used before approval of the research study to allow a researcher to determine feasibility of the research. Institutional Review Boards and privacy boards follow a special review process to protect patient privacy, safety, and welfare.
- **Marketing Activities.** We may, without obtaining your authorization and so long as we do not receive payment from a third party for doing so, 1) provide you with marketing materials in a face-to-face encounter, 2) give you a promotional gift of nominal value, or 3) tell you about our own health care products and services. We will ask your permission to use your medical information for any other marketing activities or for any disclosure which constitutes a sale of your medical information.
- **Fundraising.** We may, in some circumstances, perform fundraising activities to raise funds for the facility. You also have the right to opt out of receiving this type of communication. Specifically, if the facility creates or maintains records subject to Part 2 (as described below) are used or disclosed for fundraising, the facility will provide you with a clear and conspicuous opportunity to elect not to receive any fundraising communications.
- **Business Associates.** There are some services provided by the facility through contracts with business associates. For example, the copy service we use when making copies of your records may be a business associate. When these services are contracted, we may disclose medical information to our business associates so that they may perform the job we have asked them to do.
- **Participation in Health Information Exchanges.** We may participate in one or more health information exchanges (HIEs) and may electronically share your health information for treatment, payment and permitted healthcare operations purposes with other participants in the HIE – including entities that may not be listed under “**Who Will Follow This Notice**” on the first page of this notice. Depending on State law requirements, you may be asked to “opt-in” to share your information with HIEs, or you may be provided the opportunity to “opt-out” of HIE participation. HIEs allow your health care providers to efficiently access and use your pertinent medical information necessary for treatment and other lawful purposes. We will not share your information with an HIE unless both the HIE and its participants are subject to HIPAA's privacy and security requirements.
- **As Required by Law.** Your medical information will be disclosed when required to do so by federal, state, or local authorities, laws, rules, and/or regulations.

YOUR RIGHTS REGARDING YOUR MEDICAL INFORMATION

You have the following rights regarding medical information the facility maintains about you:

****NOTE: All Requests Must be Submitted in Writing to the Facility Privacy Officer.**

You may direct the facility to transmit the copy to another entity or person that you designate provided the choice is clear, conspicuous, and specific. If you request a paper copy of your information, we may charge a fee for the cost of copying, mailing or other supplies associated with your request.

If the facility uses or maintains an electronic health record with respect to your medical information, you have the right to obtain an electronic copy of the information if you so choose. The facility may charge a fee equal to its labor cost in providing the electronic copy (e.g., costs may include the cost of a flash drive, if that is how you request a copy of your information be produced). If you request an electronic copy of your information, we will provide the information in the format requested if it is feasible to do so.
